## MIC & MYRA FOR YOUR ANALYZES

Weighing just 2kg, the **MIC** is **the most compact and portable** thermal cycler on the market. Easy to use, it requires **no calibration, and no maintenance**. Metrological control equipment can be proposed. The MIC **is equipped with 4 filters** (SYBR/ FAM, ROX/ Texas Red, HEX/ VIC, and Cy5). There is also a **CE-IVD** version.

The **Myra**, liquid handling system, is **compatible with all PCR thermal cyclers** (96 or 384 wells). It goes perfectly with the MIC. Configuration of the devices, performing the pipetting, launching the run or analyzing the results... **transferring data and navigating between the 2 devices is very easy.**
